## Acknowledgements

The *Tax Chronology of South Africa: 1979–2024* was compiled by the Public Finance Unit in the Economic Statistics Department (ESD) of the South African Reserve Bank (SARB). Akhona Mgwele, Mothwale Maboea, Theresa Gumbi, Victor Ramphele and Vutomi Nkuna, in particular, contributed to updating this edition. Many people need to be thanked for their invaluable input, suggestions and comments. Although it is not possible to mention all contributors by name, of note are Michael Manamela and Susana Paulse of the SARB's ESD. We would also like to thank staff members of the SARB's Financial Surveillance Department for their invaluable contributions to this publication.

# Tax Chronology

## 1. Basis of the South African tax system

### 1.1 Introduction

This publication covers the period 1979 to 2024 and provides an overview of the current and historical rates for various taxes, duties and levies collected by the South African Revenue Service (SARS). For the most important types of taxes, the coverage dates back to 1979, but for the less important ones, only a more recent subset is covered. While care has been taken in the preparation of this supplement to ensure that the rates published at the date of publication are correct, minor errors may have occurred. The contents are intended for general information purposes and research only, and are not intended to serve as financial or other advice.

This publication is only published on the South African Reserve Bank (SARB) website; it is not published in hard-copy format.

### 1.2 Source-based income tax before 2001

This is a tax system where income is taxed in the country where it originates. Its point of departure is that, irrespective of residence, any person who derives income in a country should contribute to the cost of rendering public services in that country. This shift was intended to bring South Africa closer to internationally accepted tax principles and to neutralise tax avoidance schemes.

### 1.3 Residence-based income tax from 2001 onwards

Residents of a country are taxed on their income irrespective of where in the world that income is earned, and non-residents are only subject to tax on domestic-source income. This dispensation commenced on 1 January 2001.

## 2. Taxes on income, profits and capital gains

### 2.1 Persons and individuals\*

Table 2.1.1 Marginal tax rates applicable to the top income group

Period	Top income group starts at an annual income of (rand):	Marginal rate (per cent)

R1 817 001 and above	R644 489 plus 45% of the amount above R1 817 000	R1 817 001 and above	R644 489 plus 45% of the amount above R1 817 000
<b>Rebates</b>		<b>Rebates</b>	
Primary	R17 235	Primary	R17 235
Secondary	R9 444	Secondary	R9 444
Tertiary	R3 145	Tertiary	R3 145
<b>Tax threshold</b>		<b>Tax threshold</b>	
Below age 65	R95 750	Below age 65	R95 750
Age 65 and over	R148 217	Age 65 and over	R148 217
Age 75 and over	R165 689	Age 75 and over	R165 689

To ensure that the direct personal income tax (PIT) burden on individuals remains reasonable, PIT brackets and rebates are adjusted to take into account inflation or ‘bracket creep’, and occasionally also to provide limited real tax relief. In addition to the primary and secondary rebates, a third rebate was introduced for taxpayers of 75 years and older from 1 March 2011.

From 1 March 2015, a natural person of any age was exempt from provisional tax if:

- he/she does not carry on any business;
- his/her taxable income was below the tax threshold; or
- his/her taxable income derived from interest, foreign dividends and rental from fixed property does not exceed R30 000.

The 2017 Budget introduced a new top PIT bracket of 45% for taxable incomes above R1.5 million, effective from 1 March 2017.

The 2019 Budget announced that the primary, secondary and tertiary rebates would be increased by 1.1%, providing relief for inflation. However, for the first time since 1990, PIT brackets were not changed.

The 2020 Budget outlined that the main tax proposal would include PIT relief through inflation adjustments in all tax brackets. The PIT brackets as well as the primary, secondary and tertiary rebates were increased by 5.2% for 2020/21, which was above the expected inflation of 4.4%. The change in the primary rebate increased the tax-free threshold from R79 000 to R83 100.

The 2021 Budget proposed an above-inflation increase of 5% in PIT brackets and rebates, while withdrawing the previously announced tax increases of R40 billion over the next four years.

The 2022 Budget proposals included inflationary relief through a 4.5% adjustment in PIT brackets and rebates.

The 2023 Budget announced that the tax brackets and rebates would be adjusted in line with the expected inflation rate of 4.9%.

The 2024 Budget announced that PIT brackets and rebates would not be adjusted for inflation.

### COVID-19 provisional tax relief

A qualifying taxpayer could defer 35% of the provisional tax payable in respect of the second provisional tax payment due between 1 April 2020 and 31 March 2021. The deferred amount had to be paid as a third payment which would be due on 30 September 2021 for taxpayers with a February year-end or within six months of the year-end for other taxpayers. To be regarded as a qualifying taxpayer, the taxpayer had to conduct a trade during the year of assessment ending on or after 1 April 2020 and before 1 April 2021, with a gross income not exceeding R100 million during that year of assessment. The gross income could not include more than 20% in aggregate of the rental from the letting of fixed property (unless that was the taxpayer’s primary trading activity), interest, dividends, foreign dividends, royalties, annuities and remuneration. The taxpayer had to be tax-compliant when making the reduced payment.

## 2.1.1 Interest and dividend income exemption

Table 2.1.1.1 Interest and dividend income exemption

Fiscal year	Under 65 years	65 years and over
Pre-2000 .....	R2 000	R2 000

<i>Budget Review 2014* – Budget Review 2024*</i> .....	R23 800	R34 500

\* Effective from 1 March following the Budget announcement

As from 1 March 2010, the exemption applicable to foreign interest and foreign dividend income was increased from R3 500 per annum to R3 700 per annum. From 1 March 2012, this exemption was repealed.

For the first time, tax expenditure estimates were published for the participation exemption for foreign dividends and the sale of equity shares, which had been effective since March 2012 through section 10B of the Income Tax Act 58 of 1962.

Withholding tax on dividends took effect on 1 April 2012, replacing the secondary tax on companies (STC). The introduction of the tax corrected the impression that a tax on dividends was another tax on businesses. Legally and economically, dividend tax is a tax on individuals and non-resident shareholders. (Refer to company tax on pages 10 and 11.)

Table 2.1.1.2 Withholding tax on dividends\*

	Rate (per cent)
<i>Budget Reviews 2012–2016</i> .....	15
<i>Budget Reviews 2017–2024</i> .....	20

\* Effective from 1 March following the Budget announcement

Effective from 1 March 2015, the following applied:

- Taxpayers who were 65 years of age and older were required to pay provisional tax.
- Individuals who were 65 years of age and older were exempt from provisional tax if they were not company directors and only received employment income, interest, rental income or dividends amounting to a taxable income of up to R80 000 per annum. The threshold was then increased to R120 000.

Effective from 1 March 2017, the dividend withholding tax was increased from 15% to 20%.

## 2.1.2 Discontinuation of the standard income tax on employees system

The standard income tax on employees, (SITE) system was introduced in March 1988 for the tax year 1988/89 to limit the number of PIT returns filed annually, freeing resources to deal with more complicated returns. Government repealed SITE with effect from 1 March 2011, and it was systematically phased out from the 2012 to 2014 tax years. It was totally abolished with effect from 1 March 2013.

## 2.1.3 Exchange controls

Following an announcement by the Minister of Finance in the 2014 Budget Speech, the SARB streamlined the Exchange Control Rulings and the Exchange Control Manual, which were withdrawn on 1 August 2016 and replaced by the Currency and Exchanges Manual for Authorised dealers as well as the Currency and Exchanges Manual for Authorised

dealers in Foreign Exchange with Limited Authority. These manuals contain the permissions and conditions applicable to transactions in foreign exchange that may be undertaken by authorised dealers and authorised dealers in foreign exchange with limited authority and/or on behalf of their clients in terms of Exchange Control Regulation 2(2) as well as the details of related administrative responsibilities and the reporting requirements for cross-border transactions. The manuals must be read in conjunction with the Exchange Control Regulations.

### Foreign investments by private individuals

- From 15 February 2006, the foreign capital allowance for individuals was increased from R750 000 to R2 million per person. From 27 October 2009, the R2 million was increased to R4 million. From 1 April 2015, the R4 million was increased to R10 million per annum. A Tax Compliance Status (TCS) personal identification number (PIN) letter, issued by SARS, must be presented to an authorised dealer (i.e. a commercial bank) prior to authorising the transaction.
- The Financial Surveillance Department of the SARB considers applications by private individuals who wish to invest in different asset classes offshore in excess of the above-mentioned allowance. Private individuals wishing to avail of this dispensation must first approach SARS to obtain a TCS PIN letter, in the prescribed format, which must accompany their application and be submitted by an authorised dealer to the SARB's Financial Surveillance Department for consideration.
- Authorised dealers must also view a TCS PIN letter, issued by SARS, where a resident who is temporarily abroad avails of the R10 million foreign capital allowance dispensation.
- With effect from 23 February 2022, the following reforms were announced:
  - The export of dual-listed domestic securities to a recognised foreign share exchange is permitted but limited to the single discretionary allowance and/or foreign capital allowance, provided the SARB Financial Surveillance Department is duly notified. All tax and anti-money laundering requirements apply.
  - Resident individuals may use their single discretionary allowance and/or foreign capital allowance to participate in online foreign exchange trading activities but may not use credit or debit cards to do so.
  - South African residents may transfer, for foreign investment purposes, authorised capital in excess of R10 million per year through offshore trusts, subject to the current tax application and the Financial Surveillance Department's reporting requirements.

### Individuals

With effect from 23 February 2022, the following reforms were announced:

- Resident individuals may receive and retain gifts from non-residents offshore.
- Resident individuals who became entitled to a foreign inheritance from the estate of a private individual may retain the inheritance abroad, subject to local tax disclosure and compliance.
- All emigration applications must be accompanied by a duly completed Tax Clearance Certificate and, later, a TCS PIN letter, issued by SARS, which must be presented to an authorised dealer.

### Emigration

- From 15 February 2006, private individuals emigrating to any country outside of the Common Monetary Area qualified, at the time of emigration, for a foreign capital allowance of R2 million per private individual and R4 million per family unit. This allowance was increased to R4 million and R8 million respectively from 27 October 2009, and from 5 November 2010 the one-off limit was replaced with an annual limit. From 1 April 2015, the limits were increased to R10 million per private individual and R20 million per family unit per calendar year.
- All emigration applications must be accompanied by a duly completed Tax Clearance Certificate, and later, a TCS PIN letter, issued by SARS, which must be presented to an authorised dealer.
- The concept of, emigration; as recognised by the SARB, was phased out with effect from 1 March 2021 and has been replaced by a verification process based on the requirements below:
  - Authorised dealers may, on confirmation that a private individual has cleared his/her tax residency status with SARS, allow the transfer of assets abroad, subject to tax compliance.
  - For transfers of up to R1 million per individual per calendar year, authorised dealers may transfer funds offshore without the requirement to obtain a TCS PIN letter.
  - In addition to the transfers mentioned above, authorised dealers may allow the transfer of up to a total amount of R10 million per calendar year per private individual who ceases to be a resident for tax purposes in South Africa and is 18 years and older, provided that the individual is tax-compliant and submits the applicable TCS PIN for verification.
  - South African non-tax residents who transfer more than R10 million offshore are subject, initially, to a more stringent verification process by SARS as well as a subsequent approval process by the SARB's Financial Surveillance Department. Such transfers trigger a risk management test that will, inter alia, include verification of the tax status and the source of funds and also risk-assess the private individual in terms of the anti-money laundering and combating the financing of terrorism requirements, as prescribed in the Financial Intelligence Centre Act No. 38 of 2001.

- With regard to what is stated above, it is imperative that the application to the Financial Surveillance Department is accompanied by, inter alia, a TCS PIN letter that will contain the tax number and TCS PIN to verify the taxpayer's tax compliance.
- The previous process of controlling or blocking an emigrant's remaining assets in a special 'blocked funds account' has fallen away and all transfers from these accounts are handled as normal fund transfers in line with any other foreign capital allowance transfer.

With effect from 23 February 2022, authorised dealers may, on a one-off basis, remit abroad the remaining cash balances (of up to R100 000 in total) of people who have ceased to be residents for tax purposes, without reference to SARS.

## Companies

- Debt securities are classified as referencing domestic or foreign assets, depending on whether they are linked to domestic or foreign companies. In the *2020 Medium Term Budget Policy Statement*, National Treasury announced that it would consider reclassifying all debt securities referencing foreign assets that are inward-listed on local stock exchanges as domestic assets. This consideration was detailed in SARB publication, Exchange Control Circular 15/2020. After public consultation and a review, enactment of the circular was postponed in 2021. Following the review, it has been decided that all debt securities referencing foreign assets listed on South African stock exchanges remain classified as foreign.
- The offshore limit for all insurance, retirement and savings funds is harmonised at 45% inclusive of the 10% African allowance. The previous maximum limits were set at 30% or 40% for different funds.
- Institutional investors may open foreign currency accounts with authorised dealers – banks that are authorised to trade in foreign exchange – for funding purposes and to accept foreign currency deposits from the disinvestment proceeds of foreign assets, pending the reinvestment of the funds offshore.
- The foreign direct investment limit for companies investing funds offshore will increase from R1 billion to R5 billion, provided the stipulated investment conditions, tax obligations and reporting requirements are met.
- Excess income or profits of offshore branches and offices of South African firms may be retained offshore, subject to annual reporting.
- Authorised dealers may process transfers from the parent company to the domestic treasury management companies up to a maximum of R5 billion (an increase from R3 billion) per calendar year for listed entities and up to R3 billion (an increase from R2 billion) per calendar year for unlisted entities. Funds transferred under this dispensation may be used for new investments, expansions as well as other transactions of a capital nature.

## Exchange control amnesty

- South Africa has on three occasions announced a dispensation that allowed South African residents to disclose their unauthorised foreign assets held in contravention of the Exchange Control Regulations and certain Tax Acts.
- This dispensation was made available through the 2003 amnesty process, the 2010 Voluntary Disclosure Programme (VDP) and the 2016 Special Voluntary Disclosure Programme (SVDP). The 2016 SVDP came about as a result of a new global common reporting standard for the automatic exchange of tax and financial information on a global level between authorities, which came into effect in late 2017. To encourage compliance, the South African government proposed an SVDP for resident individuals and entities.
- All three opportunities for disclosure involved the regularisation of exchange control (excon) and tax affairs.
- Specific amnesty legislation (the Exchange Control Amnesty and Amendment of Taxation Laws Act 12 of 2003) was enacted to give effect to the 2003 amnesty process. The 2003 amnesty process was a joint exchange control and related tax amnesty, while the 2010 VDP process and 2016 SVDP process were administered separately by the excon authorities and the tax authorities respectively. The 2010 tax VDP and the excon VDP were implemented by way of ministerial approval.

## Capital flows management framework<sup>1</sup>

National Treasury continues to modernise South Africa's capital flows management framework. In this context, the following reforms were announced by the Minister of Finance during the 2024 Budget Speech:

- Authorised dealers – banks that are authorised to trade in foreign exchange – will be permitted to process requests by certain unlisted companies to establish an offshore company and/or have their primary listing offshore in order to raise foreign loans and capital for their operations up to a limit of R5 billion, in line with the foreign direct investment policy. Provided that these companies operate in the fields of technology, media, telecommunications, exploration as well as other research and development, they will not require prior approval from the SARB Financial Surveillance Department. Investments exceeding R5 billion per company per calendar year require approval from the Financial Surveillance Department. The transfer of intellectual property offshore as well as the use of the share-swap mechanism will still require prior approval.
- Authorised dealers will be permitted to allow South African private equity funds that are licensed with the Financial Sector Conduct Authority to invest offshore up to a limit of R5 billion, in line with the foreign direct investment policy, without prior approval. Investments exceeding R5 billion per applicant company per calendar year require approval from the Financial Surveillance Department.

<sup>1</sup> The exchange control reforms announced by the Minister of Finance during the 2024 Budget Speech are currently under public review and not yet implemented.

- Settlement of transactions: Authorised dealers will be permitted to process transactions for customer foreign currency accounts for all current account payments.
- Export proceeds: Local agents of exporters of goods from South Africa will now be able to settle export proceeds due to the local exporters through the customer foreign currency accounts without prior approval from the Financial Surveillance Department.
- Import payments: Authorised dealers may allow resident entities purchasing goods via a local subsidiary of an offshore supplier (that has to import components from abroad) and/or agents to settle only the cost of the imported components in foreign currency through the respective customer foreign currency accounts without prior approval from the Financial Surveillance Department.
- Related party agreements: Authorised dealers will be permitted to process all related part agreements relating to current account payments if applicants provide suitable documentary evidence confirming that the agreements are in accordance with the transfer pricing rules contained in section 31 of the Income Tax Act (1962), in line with the Organisation for Economic Co-operation and Development (OECD) guidelines and subject to the normal reporting requirements of the Financial Surveillance Department.

## 2.1.4 Encouragement to take out medical scheme membership

From 1 March 2006, the following arrangements applied:

- A monthly monetary cap that took into account the number of beneficiaries covered by medical scheme membership replaced the two-thirds tax-free provision.
- The threshold for individual tax-deductible medical expenses increased from 5% to 7.5% of income.
- Taxpayers 65 years of age and older continued to enjoy a full deduction for all medical expenses.

**Table 2.1.4.1 Medical deductions**

Effective date	For each of the first two beneficiaries	For each additional beneficiary
01/03/2007 .....	R500 to R530	R300 to R320
01/03/2008 .....	R530 to R570	R320 to R345
01/03/2009 .....	R570 to R625	R345 to R380
01/03/2010 .....	R625 to R670	R380 to R410
01/03/2011 .....	R670 to R720	R410 to R440
01/03/2012 (medical tax credit) .....	R216 to R230	R144 to R154
01/03/2013 .....	R230 to R242	R154 to R162
01/03/2014 .....	R242 to R257	R162 to R172
01/03/2015 .....	R257 to R270	R172 to R181
01/03/2016 .....	R270 to R286	R181 to R192
01/03/2017 .....	R286 to R303	R192 to R204
01/03/2018 .....	R303 to R310	R204 to R209
01/03/2019* .....	R310	R209
01/03/2020 .....	R310 to R319	R209 to R215
01/03/2021 .....	R319 to R332	R215 to R224
01/03/2022 .....	R332 to R347	R224 to R234
01/03/2023 .....	R347 to R364	R234 to R246
01/03/2024* .....	R364	R246

\* Medical deductions remained unchanged.

Effective from 1 March 2012, the following applied:

- Medical deductions were converted to medical tax credits.
- Income tax deductions for medical scheme contributions for taxpayers below the age of 65 years were converted into tax credits.

Effective from 1 March 2015, the following applied:

- All medical expenses for all taxpayers (below the age of 65 years and 65 years or older) were converted into tax credits.

Medical credits were introduced in 2012/13 to replace income tax deductions for medical scheme contributions. The *2018 Budget Review* announced that medical tax credits would be increased below the rate of inflation over a three-year period to help fund the roll-out of a National Health Insurance programme. There would, however, be no change in the monthly medical tax credit for medical scheme contributions in 2019 as announced in the *2019 Budget Review*. The increases in the medical tax credits that were indicated in the 2020 Budget increased the tax credit by 2.8%, in line with the announcement in the *2018 Budget Review*. The *2021 Budget Review* announced that an inflationary adjustment would apply to the value of medical tax credits.

### 2.1.5 Motor vehicle allowance

From 1 March 2005, the deemed method for calculating fixed business travel costs was adjusted by introducing a residual value element and by capping the maximum car value at R360 000. The revised tables assumed that vehicles that were five years old commonly had a 30% residual value.

The deemed private kilometres were increased from 14 000 to 16 000 on 1 March 2005, and to 18 000 on 1 March 2006.

From 1 March 2006, the percentage of the monthly motor vehicle allowances subject to tax was increased from 50% to 60%.

From 1 March 2009, this percentage was increased from 60% to 80%.

From 1 March 2010, the deemed business kilometres procedure was scrapped. A logbook was introduced for actual business kilometres travelled to record the beginning and end readings of each trip. From 1 March 2014, the maximum car value was fixed at R560 000. From 1 March 2020, the maximum car value was fixed at R665 000.

### Company cars

In order to pre-empt a switch from travel allowance arrangements to company cars over the short to medium term, from 1 March 2006 the deemed value of a company car was increased from 1.8% per month of the car's value to 2.5% per month. The deemed value of a second or additional company car remained at 4% per month.

The deemed maintenance and fuel costs were adjusted to reflect the latest applicable average running cost rates for motor vehicles.

For value-added tax (VAT) purposes, the value for the deemed supply of the right of use of a motor vehicle was determined by applying a percentage to the determined value of the vehicle.

The company car fringe benefit rules were tightened by increasing the deemed monthly taxable values to limit the potential abuse of company car fringe benefits. With effect from 1 March 2011, the vehicle fringe benefit changed to 3.5% for a company car without a maintenance plan and to 3.25% for a company car with a maintenance plan.

The use of a company car by an employee is a taxable fringe benefit based on the market value of the vehicle. To align the treatment of company car fringe benefits for all employees, government introduced a requirement that the actual retail market value be used in all cases.

### 2.1.6 Employee-related fringe benefits

Employer contributions are deemed to be a fringe benefit in the hands of the employee. Both employee and employer contributions are then deductible, up to a limit, for income tax purposes by the employee.

The employee accommodation threshold was increased from R59 750 to R63 556 per annum with effect from 1 March 2012. The accommodation threshold was further increased as follows:

- From R63 556 to R67 111 on 1 March 2013; and
- From R67 111 to R70 700 on 1 March 2015.

### 2.1.7 Retrenchment package merger

The R30 000 income tax exemption for retrenchment packages had not been adjusted for many years. From 1 March 2011, the R30 000 exemption was repealed.

The above repealed exemption was merged into the retirement lump-sum tax exemption, resulting in all retirement and retrenchment lump-sum payments being treated equally.

### 2.1.8 Pre-retirement lump-sum taxation

Pre-retirement lump-sum taxation came into effect on 1 March 2009 and remained the same up until 2014/15, thereafter it remained unchanged as from 2015/16 to 2022/23. From 2023/24, the pre-retirement lump-sum taxation increased and remained unchanged to 2024/25.

Table 2.1.8.1 Pre-retirement lump-sum taxation

2023/24		2024/25	
Taxable income (rand per annum)	Rate of tax	Taxable income (rand per annum)	Rate of tax
R1 – R27 500	0% of taxable income	R1 – R27 500	0% of taxable income
R27 501 – R726 000	18% of taxable income above R27 500	R27 501 – R726 000	18% of taxable income above R27 500
R726 001 – R1 089 000	R125 730 plus 27% of taxable income above R726 000	R726 001 – R1 089 000	R125 730 plus 27% of taxable income above R726 000
R1 089 001 and above	R223 740 plus 36% of taxable income above R1 089 000	R1 089 001 and above	R223 740 plus 36% of taxable income above R1 089 000

## 2.1.9 Tax on income of retirement funds

Retirement fund tax on interest and rental income of such funds was introduced in 1996 and abolished with effect from 1 March 2007.

Withholding taxes on lump-sum retirement payments to persons with a taxable income of less than R43 000 was abolished with effect from 1 March 2007.

From 1 March 2008, the taxation of other withdrawals from retirement funds was also simplified. From 1 March 2015, retirement fund members were able to defer the drawing of their retirement income until after their retirement date.

Table 2.1.9.1 Retirement funds

Year of assessment	Rate of normal tax on taxable income (per cent)
01/03/1996 – 28/02/1997.....	17
01/03/1997 – 28/02/1998.....	17
01/03/1998 – 28/02/1999.....	25
01/03/1999 – 29/02/2000.....	25
01/03/2000 – 28/02/2001.....	25
01/03/2001 – 28/02/2002.....	25

01/03/2003 – 29/02/2004.....	18
01/03/2004 – 28/02/2005.....	18
01/03/2005 – 28/02/2006.....	18
01/03/2006 – 28/02/2007.....	9

**Note:**

Tax on retirement funds was abolished with effect from 1 March 2007.

## Two-pot retirement system

The first phase of legislative amendments to the retirement system took effect on 1 March 2024 as indicated in the *2023 Budget Review*. The intent of these amendments is to enable pre-retirement access to a portion of one's retirement assets while preserving the remainder for retirement. Retirement fund contributions will remain deductible up to R350 000 per year or 27.5% of taxable income per year.

According to the *2024 Budget Review*, retirement fund contributions will remain deductible up to R350 000 per year or 27.5% of taxable income per year. Parliament recommended that early access to retirement funds be set earlier than 2025, as originally suggested. This reform is proposed to come into effect on 1 September 2024.

Taken as a proportion of gross domestic product, tax revenue fluctuated mostly below its long-term average of 21.0% between 1985 and 2004. Since 2005, it has consistently exceeded the average.

### National government total gross tax revenue

## 2.1.10 Taxation of lump sums upon retirement

From 1 March 2011, government increased the tax-free lump-sum benefit upon retirement from R300 000 to R315 000.

Table 2.1.10.1 Taxation of lump sums upon retirement

Taxable lump sum	Rate of tax (2011/12)
R0 – R315 000.....	0% of amount
R315 001 – R630 000.....	R0 plus 18% of amount exceeding R315 000
R630 001 – R945 000.....	R56 700 plus 27% of amount exceeding R630 000
R945 001 and above.....	R141 750 plus 36% of amount exceeding R945 000

Taxable lump sum	Rate of tax (2024/25)
R1 – R550 000.....	0% of amount
R550 001 – R770 000.....	R0 plus 18% of amount exceeding R550 000
R770 001 – R1 155 000 .....	R39 600 plus 27% of amount exceeding R770 000
R1 155 001 and above .....	R143 550 plus 36% of amount exceeding R1 155 000

Lump-sum withdrawals upon retirement from pension and retirement annuity funds are restricted to a maximum of one-third of accumulated savings. A uniform approach to retirement fund withdrawals was legislated in 2013, to be effective from 1 March 2016.

Divorce settlement payments made by retirement funds are now taxable in the hands of the non-member spouse.

From 1 March 2012, the clean-break principle applied fully to the overall tax treatment of all retirement benefits paid out as a result of a divorce order.

## 2.1.11 Tax-free savings accounts

To encourage greater savings among South Africans, the *2012 Budget Review* proposed the tax-preferred savings and investment accounts as alternatives to the current tax-free interest-income caps. This would encourage a new generation of savings products. Returns generated within these savings and investment vehicles (including interest, capital gains and dividends) and withdrawals would be tax-exempt. Aggregate annual contributions could be limited to R30 000 per year per taxpayer, with a lifetime limit of R500 000 to ensure that high net-worth individuals do not benefit disproportionately. Where the annual or lifetime limits are exceeded, a penalty of 40% of the excess capital contributed is imposed.

The *2020 Budget Review* pronounced that the annual limit on contributions to tax-free savings accounts would increase from R33 000 to R36 000 from 1 March 2020. This has remained unchanged.

## 2.2 Corporations and other enterprises

Companies include close corporations (Note 1) but exclude companies referred to in 2.2.1 to 2.2.10 for those particular years of assessment.

Table 2.2.1 South African company tax rates

Year of assessment	Rate of normal tax on taxable income	Surcharge	Transitional levy (Note 2)	UPT (Note 3) (per cent)
01/04/1980 – 31/03/1981.....	40	5	–	33⅓

01/04/2015 – 31/03/2016.....	28	–	–	–
01/04/2016 – 31/03/2017.....	28	–	–	–
01/04/2017 – 31/03/2018.....	28	–	–	–
01/04/2018 – 31/03/2019.....	28	–	–	–

Table 2.2.1 South African company tax rates (continued)

Year of assessment	Rate of normal tax on taxable income	Surcharge	Transitional levy (Note 2)	UPT (Note 3) (per cent)
01/04/2019 – 31/03/2020.....	28	–	–	–
01/04/2020 – 31/03/2021.....	28	–	–	–
01/04/2021 – 30/03/2022.....	28	–	–	–
01/04/2022 – 30/03/2023.....	28	–	–	–
01/04/2023 – 31/03/2024.....	27	–	–	–
01/04/2024 – 31/03/2025.....	27	–	–	–

Notes:

- (1) **Close corporations (CCs):** CCs became liable to tax with effect from the 1985 year of assessment.
- (2) **Transitional levy:** To finance transitional costs incurred during the 1993 and 1994 transitional process to democracy, a one-off transitional levy was charged during the 1995 year of assessment. This levy was calculated as a certain percentage of taxable income in excess of R50 000 before set-off of any balance of assessed loss brought forward.
- (3) **Undistributed profits tax (UPT):** UPT was payable by companies at a rate of 33.5% on the amount by which the distributable profit of a company exceeded the dividends distributed during the specified period relating to the year of assessment. In light of the exemption of income in the form of dividends in the hands of natural persons and CCs, this tax was no longer warranted as from 1 April 1990.

The 2021 Budget Speech announced that government would be restructuring the corporate income tax (CIT) system in a manner that has no effect on net revenue collections. Effective for tax years ending on or after 31 March 2023, the CIT rate was reduced by 1 percentage point to 27%. Changes to CIT could have an impact on investor behaviour.

## Secondary tax on companies

STC was payable by a company net dividends declared during the company's dividend cycle, of which the last cycle ended on 31 March 2012. The STC credits of such a company could be used until 31 March 2015 to ensure that the after-tax profits of a company that were distributed to shareholders, and that were subject to STC, were not also subjected to dividends tax when distributed to shareholders.

### Rate at which STC was levied

Period*	Rate of STC	Period*	Rate of STC
17/03/1993 – 21/06/1994	15%	14/03/1996 – 30/09/2007	12.5%
22/06/1994 – 13/03/1996	25%	01/10/2007 – 31/03/2012	10.0%

\* Dividends tax replaced STC from 1 April 2012.

## Large multinational groups of companies

According to the *2024 Budget Review*, multinational corporations with annual revenue exceeding €750 million would be subject to an effective minimum tax rate of 15% effective from 1 January 2024, regardless of where their profits are generated. Government proposed to introduce two measures to effect the change – an income inclusion rule and a domestic minimum top-up tax – for qualifying multinational corporations from 1 January 2024.

### 2.2.1 Mining companies

#### 2.2.1.1 Companies mining for gold

These companies are taxed according to one of the 'gold-mining tax formulas' listed below.

Table 2.2.1.1.1 Rate of normal tax on taxable income derived from mining for gold

Year of assessment	Mining company not exempt from STC	Mining company elected to be exempt from STC
01/04/1994 – 31/03/1995.....	$Y = 43 - (215/x)$	$Y = 58 - (290/x)$
01/04/1995 – 31/03/1996.....	$Y = 43 - (215/x)$	$Y = 58 - (290/x)$
01/04/1996 – 31/03/1997.....	$Y = 43 - (215/x)$	$Y = 51 - (255/x)$
01/04/1997 – 31/03/1998.....	$Y = 43 - (215/x)$	$Y = 51 - (255/x)$
01/04/1998 – 31/03/1999.....	$Y = 43 - (215/x)$	$Y = 51 - (255/x)$
01/04/1999 – 31/03/2000.....	$Y = 37 - (185/x)$	$Y = 46 - (230/x)$
01/04/2000 – 31/03/2001.....	$Y = 37 - (185/x)$	$Y = 46 - (230/x)$
01/04/2001 – 31/03/2002.....	$Y = 37 - (185/x)$	$Y = 46 - (230/x)$
01/04/2002 – 31/03/2003.....	$Y = 37 - (185/x)$	$Y = 46 - (230/x)$

Table 2.2.1.1.1 Rate of normal tax on taxable income derived from mining for gold (continued)

Year of assessment	Mining company not exempt from STC	Mining company elected to be exempt from STC
01/04/2003 – 31/03/2004.....	$Y = 37 - (185/x)$	$Y = 46 - (230/x)$
01/04/2004 – 31/03/2005.....	$Y = 37 - (185/x)$	$Y = 46 - (230/x)$
01/04/2005 – 31/03/2006.....	$Y = 35 - (175/x)$	$Y = 45 - (225/x)$
01/04/2006 – 31/03/2007.....	$Y = 35 - (175/x)$	$Y = 45 - (225/x)$
01/04/2007 – 31/03/2008.....	$Y = 35 - (175/x)$	$Y = 45 - (225/x)$
01/04/2008 – 31/03/2009.....	$Y = 34 - (175/x)$	$Y = 43 - (225/x)$
01/04/2009 – 31/03/2010.....	$Y = 34 - (170/x)$	$Y = 43 - (215/x)$
01/04/2010 – 31/03/2011.....	$Y = 34 - (170/x)$	$Y = 43 - (215/x)$
01/04/2011 – 31/03/2012.....	$Y = 34 - (170/x)$	$Y = 43 - (215/x)$

In the formula:

$x$  = the ratio, expressed as a percentage, calculated as follows:

$$\frac{\text{Taxable income from gold mining}}{\text{Total revenue (turnover) from gold mining}}$$

and

$y$  = calculated percentage which represents the rate of tax to be levied

Only one formula (see below) was applied from 1 April 2012, as STC was replaced following the introduction of a dividend tax on that date.

Year of assessment	Formula
01/04/2012 – 31/03/2013 .....	$Y = 34 - (170/x)$
01/04/2013 – 31/03/2014 .....	$Y = 34 - (170/x)$
01/04/2014 – 31/03/2015 .....	$Y = 34 - (170/x)$

**Note:**

For years of assessment that ended on or after 1 April 1993, see Table 2.2.1 for the tax rate.

## 2.2.2 Oil and gas companies

### 2.2.2.1 Rate of normal tax on taxable income derived by an oil and gas company

#### 2.2.2.1.1 For the years of assessment that ended on or after 1 January 1992

The same rate of normal tax applicable to companies is applicable to an oil and gas company on taxable income derived from oil and gas, plus an additional normal tax equal to 40% of the amount remaining after the deduction of the normal tax from such taxable income. The normal tax and the additional normal tax may, however, be reduced in terms of section 5(2A)(b) of the Taxation Laws Amendment Act 20 of 2022 (Taxation Laws Amendment Act).

#### 2.2.2.1.2 For years of assessment that commenced on or after 2 November 2006

(See paragraph 2 of the Tenth Schedule to the Taxation Laws Amendment Act.)

The rate of tax on taxable income derived from oil and gas by an oil and gas company that:

- is a resident, or an oil and gas company which is not a resident that carries on a trade within the Republic of South Africa and which solely derives its income from oil and gas solely by virtue of an OP26 right (as defined in the Mineral and Petroleum Resources Development Act 28 of 2002) previously held by such a company, will not exceed 29%; and
- is not a resident, but carries on a trade within the Republic of South Africa, will not exceed 32% if it solely derives its income from oil and gas by virtue of an OP26 right.

#### 2.2.2.1.3 For years of assessment that ended on or after 1 April 2008

The rate of tax on taxable income derived from oil and gas by an oil and gas company that:

- is a resident, or an oil and gas company which is not a resident that carries on a trade within the Republic of South Africa and which derives its income from oil and gas solely by virtue of an OP26 right (as defined in the Mineral and Petroleum Resources Development Act 28 of 2002) previously held by such a company, will not exceed 28%; and
- is not a resident, but carries on a trade within the Republic of South Africa, will not exceed 31%.

#### 2.2.2.1.4 For years of assessment that ended on or after 1 January 2010

The definition of an 'oil and gas company' was narrowed to limit the benefits available under the Tenth Schedule to the Taxation Laws Amendment Act to 'oil and gas production' as defined in the said Schedule.

#### 2.2.2.1.5 For years of assessment that ended during the 12-month period up to 31 March 2013 and subsequent years of assessment

The rate of tax on taxable income derived from oil and gas by an oil and gas company must not exceed 28%.

#### 2.2.2.1.6 Minimum royalty rate for oil and gas companies

The 2023 Budget announced that the minimum royalty rate would be increased from 0.5% to 2%, with the maximum remaining at 5%.

#### 2.2.2.2 Rate of STC on the net amount of any dividend declared by an oil and gas company

The rate of STC on the net amount of any dividend declared by an oil and gas company will not exceed 5%. STC is not applicable where a company is engaged in refining.

The rate of STC on the net amount of any dividend declared by an oil and gas company derived from the profits of its oil and gas income, if all its oil and gas rights are solely derived (directly or indirectly) from an OP26 right previously held by that company, must not exceed 0%. STC is not applicable where the company is engaged in refining.

Dividends tax replaced STC from 1 April 2012.

#### 2.2.2.3 Rate of dividends tax in respect of dividends paid by an oil and gas company

The rate of dividends tax payable by an oil and gas company will not exceed 5% of the amount of a dividend paid out of amounts attributable to its income from oil and gas.

The rate of dividends tax payable must not exceed 0% of the amount of any dividend paid by an oil and gas company out of the amounts attributable to its income from oil and gas if all its oil and gas rights are solely derived (directly or indirectly) by virtue of an OP26 right previously held by that company.

#### 2.2.2.4 For years of assessment commencing on or after 1 January 2014

The rate of dividends tax that will be payable by an oil and gas company on the amount of any dividend arising from oil and gas income is zero rate.

### 2.2.3 Insurance companies

#### 2.2.3.1 Long-term insurance companies

For taxation purposes, the business of long-term insurance companies is disaggregated and the various 'funds' are taxed separately. There are four funds: (i) corporate fund (CF); (ii) individual policyholder fund (IPF); (iii) company policyholder fund (CPF); and (iv) untaxed policyholder fund (UPF).

Table 2.2.3.1.1 Rate of normal tax on taxable income derived by the four funds

Year of assessment	CF (per cent)	IPF (per cent)	CPF (per cent)	UPF	
				Administered retirement funds	Other (per cent)

01/04/2014 – 31/03/2015.....	28	30	28	See Table 2.1.9.1	0

### 2.2.3.2 Short-term insurance companies

The rate of normal tax on the taxable income of a company carrying on a short-term insurance business is the same rate that is applicable to companies.

### 2.2.4 Employment companies

A personal service company is a limited company that typically has a sole director – the contractor – who owns most or all of the shares. The contractor's personal service company generally supplies professional services to end-user clients, either directly or via an agency.

A labour broker is any natural person who conducts or carries on any business whereby such a person, for a reward, provides the client of such a business with other persons to render a service or perform work for such a client, or procures such other persons for the client, for which services such other persons are remunerated by such a person. The labour broker must apply for an exemption certificate annually. (The certificate is only valid for one tax year.) A fully completed IRP30A application, together with supporting documents, must be submitted to the nearest SARS branch at least two months before the expiry of the current exemption certificate.

Table 2.2.4.1 Employment companies

Year of assessment	Rate of normal tax on taxable income (per cent)
01/04/2000 – 31/03/2001.....	35
01/04/2001 – 31/03/2002.....	35
01/04/2002 – 31/03/2003.....	35

01/04/2007 – 31/03/2008.....	34
01/04/2008 – 31/03/2012.....	33

**Note:**

For the years of assessment that commenced on or after 1 March 2009, see Table 2.2.1 for the applicable tax rate.

## 2.2.5 Personal service providers that are companies

Table 2.2.5.1 Personal service providers that are companies

Year of assessment	Rate of normal tax on taxable income (per cent)
01/03/2009 – 31/03/2010.....	33
01/04/2010 – 31/03/2011.....	33
01/04/2011 – 31/03/2012.....	33

**Note:**

For years of assessment that commenced on or after 1 March 2013, see Table 2.2.1 for the tax rate.

## 2.2.6 Companies that are not residents and derive taxable income

Table 2.2.6.1 Companies that are not residents and derive taxable income

Year of assessment	Rate of normal tax on taxable income (per cent)
01/04/1996 – 31/03/1997.....	40
01/04/1997 – 31/03/1998.....	40
01/04/1998 – 31/03/1999.....	40
01/04/1999 – 31/03/2000.....	35
01/04/2000 – 31/03/2001.....	35
01/04/2001 – 31/03/2002.....	35
01/04/2002 – 31/03/2003.....	35
01/04/2003 – 31/03/2004.....	35
01/04/2004 – 31/03/2005.....	35
01/04/2005 – 31/03/2006.....	34
01/04/2006 – 31/03/2007.....	34
01/04/2007 – 31/03/2008.....	34
01/04/2008 – 31/03/2009.....	33
01/04/2009 – 31/03/2010.....	33
01/04/2010 – 31/03/2011.....	33
01/04/2011 – 31/03/2012.....	33

**Notes:**

Companies that are not residents are not subject to STC.

For years of assessment that ended after 31 March 2012, see Table 2.2.1 for the tax rate.

## 2.2.7 Tax-holiday companies

These are qualifying companies that enjoy 'tax-holiday status' in terms of section 37H of the Taxation Laws Amendment Act. Companies could only qualify under this section in terms of approved qualifying projects applied for up until 30 September 1999.

Table 2.2.7.1 Tax-holiday companies

Year of assessment	Rate of normal tax on taxable income (per cent)
During the tax-holiday status.....	0

**Note:**

Tax-holiday companies are exempt from STC.

This concession was repealed for years of assessment commencing on or after 1 January 2013.

## 2.2.8 Public benefit organisations or recreational clubs

A public benefit organisation (PBO) that is approved in terms of section 30(3) of the Taxation Laws Amendment Act is taxable on its taxable income as from its first year of assessment if it commenced operations on or after 1 April 2006.

A recreational club that is approved in terms of section 30A(2) of the Taxation Laws Amendment Act is taxable on its taxable income as from its first year of assessment if it commenced operations on or after 1 April 2007.

If a PBO fails to comply with specific requirements for receiving tax-deductible donations, SARS may regard these donations as taxable income for the organisation. If the failure is not addressed within a reasonable period, the receipts issued by the organisation will no longer be valid for claiming tax deductions. The sanctions do not apply to the requirement that an organisation conducting mixed activities, some of which qualify for the issue of receipts and some of which do not, must obtain an audit certificate for the use of the funds for which the receipts have been issued.

## 2.2.9 Graduated tax on small business corporations

Tax relief for eligible small business companies came into operation in 2001. The amendments to section 12E of the Income Tax Act 58 of 1962 on small business corporations, whereby they were given an accelerated depreciation regime and where personal service providers could get the benefit (if they employed four or more people), came into effect in 2005. They would benefit from a simplified and enhanced depreciation regime to encourage fixed capital formation.

A depreciation write-off at a 50:30:20 rate over a three-year period for all depreciable assets applied, while manufacturing assets could retain their immediate 100% write-off.

The R20 000 double deduction for start-ups was removed from 1 April 2005.

An immediate 100% depreciation was introduced for individual small items purchased for business purposes. This threshold was increased from R2 000 to R5 000 for assets purchased on or after 1 March 2006. This threshold of R5 000 was further increased to R7 000 for assets purchased on or after 1 March 2009.

**Table 2.2.9.1 Graduated tax on small business corporations**

Effective date	Turnover of small business corporation	Taxable income	Company tax rate applicable (per cent)
1 April 2000 and 1 April 2001.....	Less than R1 million	R1 – R100 000	15% of the amount not exceeding R100 000
		R100 001 and above	15% of the amount not exceeding R100 000 plus 30% of the amount that does exceed R100 000
1 April 2002.....	Less than R3 million	R1 – R150 000	15% of the amount not exceeding R150 000
		R150 001 and above	15% of the amount not exceeding R150 000 plus 30% of the amount that does exceed R150 000
1 April 2003 and 1 April 2004.....	Less than R5 million	R1 – R150 000	15% of the amount not exceeding R150 000
		R150 001 and above	15% of the amount not exceeding R150 000 plus 30% of the amount that does exceed R150 000
1 April 2005.....	Less than R6 million	R1 – R35 000	0%
		R35 001 – R250 000	10% of the amount above R35 000
		R250 001 and above	R21 500 plus 29% of the amount above R250 000
1 April 2006.....	Less than R14 million	R1 – R40 000	0%
		R40 001 – R300 000	10% of the amount above R40 000
		R300 001 and above	R26 000 plus 29% of the amount above R300 000
1 April 2007.....	Less than R14 million	R1 – R43 000	0%
		R43 001 – R300 000	10% of the amount above R43 000
		R300 001 and above	R27 500 plus 29% of the amount above R300 000
1 April 2008.....	Less than R14 million	R1 – R46 000	0%
		R46 001 – R300 000	10% of the amount above R46 000

From 1 March 2012, micro businesses (i.e. those businesses with an annual turnover below R1 million) were given the option of making payments for turnover tax, VAT and employee tax at twice-yearly intervals.

## 2.2.10 Micro businesses

A person qualifies as a micro business (as defined in the Sixth Schedule to the Taxation Laws Amendment Act) if:

- that person is a natural person (or the deceased or insolvent estate of a natural person that was a registered micro business at the time of death or insolvency); or
- that person is a company; and
- the qualifying turnover of that person for the year of assessment does not exceed an amount of R1 million.

	R750 001 and above		R6 650 plus 3% of the amount above R750 000

### 2.2.11 Regional Services Council levy reform

Regional Services Council (RSC) levies were abolished on 30 June 2006 and replaced with alternative funding arrangements to ensure the continued independence and financial viability of municipalities.

This provided significant direct tax relief to businesses. The administrative burden was significantly lowered as RSC levies required monthly submissions. Since one of the levies was imposed on payroll, its removal effectively lowered the costs of job creation.

### 2.2.12 Treatment of collective investment scheme distributions

Until 2009, a collective investment scheme (CIS) in shares was treated as a company whose distributions were treated as a special form of dividend.

The *2009 Budget Review* proposed that distributions by these schemes should generally follow a flow-through principle from 2010.

If a CIS distributes the dividends received, this should be viewed as dividends in the hands of holders of participatory interests. If it distributes the interest received, this should be viewed as interest in the hands of holders of participatory interests.

### 2.2.13 Energy-efficiency savings tax credit incentive

The energy-efficiency savings tax credit incentive complements the proposed future carbon tax and will be extended to co-generation projects. It encourages firms to support a greener economy. Businesses can claim deductions based on energy saved.

Table 2.2.13.1 Energy-efficiency savings tax incentive

Effective date*	Rate per kWh
1 November 2013 .....	0.45c
As determined in the Taxation Laws Amendment Act.....	0.95c

\* Effective from 1 April 2023 following the Budget announcement

### 2.2.14 Environmental fiscal reform

#### Incentives for cleaner production: energy efficiency

Current legislation provides for a three-year 50:30:20% accelerated depreciation allowance for investments in renewable energy and biofuels production.

It was proposed that investments by companies in energy-efficient equipment should qualify for an additional allowance of up to 15% on condition that there is documentary proof of the resulting energy efficiencies (after a two- or three-year period), certified by the Energy Efficiency Agency.

The 2023 Budget announced an expanded tax incentive of R5 billion for businesses, or 125% of the cost of renewable energy assets used for electricity generation, brought into use during a period of two years from 1 March 2023.

A R4 billion tax rebate to individuals for solar photovoltaic (PV) panels of 25% of the cost for a limited period, subject to certain conditions and capped at R15 000 per individual, was announced in the 2023 Budget.

### 2.2.15 Emission reduction credits from clean development projects

From 1 March 2009, income derived from the disposal of primary certified emission reductions (CERs) was tax-exempt or subject to capital gains tax (CGT) instead of normal income tax. From 1 March 2009, secondary CERs were classified as trading stock and taxed accordingly.

### 2.2.16 Tax incentives to support industrial policy

An amount of R5 billion was set aside for tax incentives to be used over the three financial years 2012/13 – 2014/15 in support of sectors identified as key to the emerging industrial strategy. This was addressed in the *2012 Budget Review*, under 'Business taxes: special economic zones'.

### 2.2.17 Bursaries for relatives of employees

To facilitate employer-sponsored education and training of the dependants of low- and middle-income workers, this tax-free fringe benefit was increased from 1 March 2008 to R10 000 per year for employees earning up to R100 000 per year.

With effect from 1 March 2013, this threshold was increased from R10 000 to R30 000 for students attending tertiary education, but remained at R10 000 for certain students at schools for employees earning up to R200 000 per year.

With effect from 1 March 2017, the income eligibility threshold for employees to access the relief was increased from R400 000 to R600 000. The value of qualifying bursaries was increased from R15 000 to R20 000 for National Qualifications Framework (NQF) level 7, and from R40 000 to R60 000 for NQF levels above 7.

A number of employer bursary schemes seek to reclassify ordinary remuneration as a tax-exempt bursary granted to the dependents of an employee. Government proposed to close this loophole, and these amendments were introduced on 1 March 2020.

With effect from 1 March 2018, where the benefit is granted to a relative with a disability, the exemption will apply to the extent that the bursary does not exceed R90 000 per relative for higher education and R30 000 per relative for basic education to Grade 12.

## 2.3 Capital gains tax

CGT was introduced on 1 October 2001, whereby income tax is levied on a portion of the gains realised from the disposal of certain assets by corporate and individual taxpayers. A capital gain arises when the proceeds of the disposal of an asset exceed the base cost of the asset.

The effective rate applicable to the four funds – CFs, IPFs, CPFs and UPFs – is calculated by multiplying the inclusion rate applicable to each fund by the tax rate of that particular fund.

From 1 March 2008, the annual capital gain or loss exclusion was increased from R15 000 to R16 000.

From 1 March 2009, the following applied:

- The annual exclusion ceiling for capital gains and losses for individuals was increased from R16 000 to R17 500.
- The CGT regime contains several exclusions. One such exclusion is for an individual's primary residence, where a capital gain or loss of up to R1.5 million upon the disposal of such a residence is excluded from taxable capital gains. The exclusion was extended so that an alternative would be available based on the gross sale proceeds of the residence.
- The CGT exclusions fully apply to the primary residence with a gross value of R2 million.
- Thus, people selling their primary residence with a gross value below R2 million are not liable for CGT. For primary residences valued above this threshold, the normal rules apply.

From 1 March 2012, the following applied:

- The annual exclusion increased from R20 000 to R30 000.
- The exclusion amount on death increased from R200 000 to R300 000.
- The exclusion amount on the disposal of a small business for persons over the age of 55 years increased from R900 000 to R1.8 million.
- The maximum market value of assets allowed for a small business disposal for business owners over the age of 55 years increased from R5 million to R10 million.

### 3. Taxes on payroll and workforce

#### 3.1 Skills development levy

The levy is meant to provide funding for the training and upgrading of skills levels of the workforce.

**Table 3.1.1 Taxes on payroll and workforce: skills development levy**

Effective date	Rate: percentage of payroll	Payroll bill
01/04/2000 – 31/03/2001.....	0.5	More than R250 000
01/04/2001 – 31/07/2005.....	1.0	More than R250 000
01/08/2005 to date.....	1.0	More than R500 000

From 1 August 2005, employers paying annual remuneration of less than R500 000 were exempt from the payment of skills development levies.

## 4. Taxes on property

Table 4.1 Natural person: amount exempt

Effective date	Rebate per year (natural persons)*
16/03/1988 – 29/02/1996.....	R20 000
01/03/1996 – 28/02/2002.....	R25 000
01/03/2002 – 28/02/2006.....	R30 000
01/03/2006 – 28/02/2007.....	R50 000
01/03/2007 to date.....	R100 000

\* Natural persons are defined as individuals.

### 4.1 Estate, inheritance and gift taxes

#### 4.1.1 Estate duty

An estate consists of all property, including deemed property (e.g. life insurance policies and payments from pension funds), of a deceased, wherever situated. The dutiable amount of the estate is calculated after the deduction of certain admissible amounts (such as the value of the property that accrues to the surviving spouse) and an exemption amounting to R3.5 million (R2.5 million up to 28 February 2007).

With effect from 1 January 2010, the following became applicable to the estate of a person who died on or after the date:

- If a person was a spouse at the time of death of one or more previously deceased persons, the dutiable amount of the estate of that person will be determined by deducting from the net value of that estate an amount equal to:
  - the specified amount multiplied by two (that equals R7 million) less the specified amount already allowed as a deduction from the net value of the estate of any one of the previously deceased persons.
- If a person was one of the spouses at the time of death of a previously deceased person, the dutiable amount of the estate of that person will be determined by deducting from the net value of that estate an amount equal to the sum of:
  - the current specified amount, which is R3.5 million; and
  - an amount calculated as follows:  
the current specified amount, which is R3.5 million, reduced by the specified amount already allowed as a deduction from the net value of the estate of the previously deceased person, divided by the number of spouses of that previously deceased person.

With effect from 1 March 2018, the *2018 Budget Review* increased the estate duty for estates worth more than R30 million to 25%.

Table 4.1.1.1 Estate duty

Effective date	Rate (per cent)
16/03/1988 – 13/03/1996.....	15

\* Natural persons are defined as individuals.

### 4.1.3 Donations tax

Effective from 1 March 2007, donations made by individuals to qualifying PBOs up to a maximum of 10% (previously 5%) of these individuals' taxable income during the tax year were deductible.

Effective from 1 March 2008, donations made by taxpayers to qualifying PBOs up to a maximum of 10% (previously 5%) of their taxable income during the tax year were deductible. The same rates that were applicable to estate duty were applicable to donations, except it was not triggered at death.

Effective from 1 March 2018, if a donation or the cumulative value of the donations in that year of assessment at the date of that donation exceeds R30 million, the donation will be taxed at 25%. If a donation does not exceed R30 million, the donation will be taxed at a flat rate of 20%.

Exemptions from donations tax include:

- donations by natural persons up to R100 000 per year (2006: R50 000 per year);
- donations by corporate entities not considered to be public companies up to R10 000 per year;
- donations between spouses;
- *bona fide* maintenance payments;
- donations to PBOs as well as qualifying traditional councils and communities;
- donations where the donee will not benefit until the death of the donor;
- donations made by companies that are recognised as public companies for tax purposes;
- donations cancelled within six months of the effective date;
- property disposed of under, and in pursuance, of any trust;
- the donation of a property or a right in a property situated outside of South Africa if acquired by the donor:
  - before becoming a resident in South Africa for the first time; or
  - by inheritance or donation from a non-resident; and
- donations between companies forming part of the same group of companies.

## 4.2 Taxes on financial and capital transactions

### 4.2.1 Marketable securities tax

Tax payable by stockbrokers on behalf of clients is in respect of purchases of marketable securities at a rate of 0.25% of the consideration. Some securities such as bonds were exempted, but marketable securities tax applied to share transactions. From 1 July 2008, the name was changed to securities transfer tax.

**Table 4.2.1.1 Marketable securities tax**

Effective date	Rate (per cent)
Prior to 1 April 1996 .....	1.00
01/04/1996 – 31/08/1997 .....	0.50
01/04/1997 – 21/12/2003* .....	0.25

\* The Marketable Securities Tax Act 32 of 1948 was promulgated on 22 December 2003. This was replaced by the Uncertified Securities Tax Act 31 of 1998.

### 4.2.2 Uncertified securities tax

Before 2007, this was a tax payable in respect of the issue of, and change in, beneficial ownership in any listed securities. From 2007, there was a proposed migration of the tax on unlisted shares to the Uncertified Securities Tax Act 31 of 1998, which was renamed the Securities Transfer Tax Act 25 of 2007. The Securities Transfer Tax Act replaced the Uncertified Securities Tax Act and the Marketable Securities Tax Act.

**Table 4.2.2.1 Uncertified securities tax**

Effective date	Rate (per cent)
01/06/1999 .....	0.25

## 5. Taxes on goods and services

Government proposed to raise VAT by one percentage point, from 14% to 15%, effective from 1 April 2018. The increase was deemed necessary to meet new spending commitments and prevent further erosion of public finances.

### 5.1 Trends in general sales tax and VAT

**Table 5.1.1 Trends in general sales tax (GST) and VAT**

#### Zero-rated and exempt supplies

**Table 5.1.2 Zero-rated and exempt supplies**

The following goods and services are zero-rated:	The following goods and services are exempted from VAT:
Exports	Non-fee-related financial services
19 basic food items (Table 5.1.3)	Educational services provided by an approved educational institution
Illuminating paraffin	Residential rental accommodation
Goods which are subject to the fuel levy (petrol and diesel)	Public road and rail transport
International transport services	
Farming inputs	
Sales of going concerns	
Certain grants by government	

## Basic food zero-rated in South Africa

**Table 5.1.3 Basic food zero-rated in South Africa**

Brown bread	Rice
Maize meal	Vegetables
Samp	Fruit
Mealie rice	Vegetable oil
Dried mealies	Milk
Dried beans	Cultured milk
Lentils	Brown wheaten meal
Pilchards/sardinella in tins	Eggs
Milk powder	Edible legumes and pulses of leguminous plants
Dairy powder blend	White bread flour
Cake flour	Sanitary pads

**Table 5.1.4 Calculation of VAT and duties (domestic) – only an example**

	Tariff	Cost (rand)
Cost of goods .....		100.00
Ad valorem (dependent on the tariff book) for example.....	3%	3.00
		103.00
VAT (cost of goods and all duties) .....	15%	15.45
<b>Total</b> .....		<b>118.45</b>

## 5.2 VAT voluntary registration threshold

Effective from 1 March 2010, the threshold was increased from R20 000 to R50 000.

To encourage taxpayers to come forward and avoid the future imposition of interest, a Voluntary Disclosure Programme was instituted from 1 November 2010 to 31 October 2011. During this period, taxpayers could disclose their defaults and regularise their tax affairs.

A defaulting taxpayer was granted relief under the programme, provided:

- the disclosure was complete; and
- SARS was not aware of the default.

A penalty or additional tax would have been imposed had SARS discovered the default in the normal course of business. Government proposed to do away with the discretion of SARS to waiver interest charged on unpaid provisional tax.

## 5.3 False statements on VAT reforms

Any false statement on any VAT form submitted to SARS, not only on returns, is considered an offence.

## 5.4 VAT and residential property developers

The sale of residential property by developers is subject to VAT at the standard rate, while the leasing is VAT-exempt. The temporary leasing of residential units requires a full claw-back of the VAT input credits for leased units. Options are investigated to determine equitable value and the rate of claw-back for developers.

## 5.5 Specific excise duties

## 5.6 Ad valorem excise duties

The list of products subject to ad valorem excise duties is revisited on an ongoing basis. For example, ad valorem excise duties on the following items were abolished in 2004 and 2005:

- from 1 April 2004, computer monitors, based on the assumption that they were used as computer screens; and
- from 1 April 2005, cosmetic sun-protection products with a sun-protection factor of 15 and above.

Digital video cameras with a value in excess of R15 000 were not subjected to ad valorem excise duties from 1 April 2005 as such cameras are used almost exclusively for commercial purposes.

The following ad valorem excise duties were abolished from 1 April 2006:

- aqueous distillates and aqueous solutions of essential oils;
- automatic goods vending machines;
- facsimile machines;
- parts of facsimile transmission apparatus; and
- road tractors.

The following ad valorem excise duties were abolished from 1 April 2007:

- air-conditioning machines installed in motor vehicles;
- domestic dish-washing machines;
- camera lenses;
- sunglasses;
- binoculars;
- telescopes;
- instant print cameras;
- other photographic cameras;
- flashlights and flashbulbs;
- cinematographic cameras;
- cinematographic projectors;
- slide projectors; and
- image projectors.

The following ad valorem excise duties were abolished from 1 April 2008:

- sound-recording or reproducing apparatus operated by coins, banknotes, bank cards, tokens or other means of payment;
- turntables (record decks);
- sound-recording or reproducing apparatus using magnetic media;
- magnetic tapes; and
- video games with a self-contained screen and games of skill or chance with an electronic display, including parts thereof.

Passenger cars and light commercial vehicles are subject to a 'luxury' excise tax that increases with the price of the vehicle. The *2011 Budget Review* proposed that the maximum nominal ad valorem excise tax rate on these vehicles be increased from 20% to 25%.

With effect from 1 April 2018, the ad valorem excise duties on motor vehicles were increased from 25% to 30%. In addition, the ad valorem excise duties on 'smart phones' were also increased from 7% to 9%. Furthermore, government also consulted on a proposal to replace the flat rate for cellphones with a progressive rate structure based on the value of the cellphone.

## 5.7 General fuel levy

The equalisation fund levy was abolished from 1 March 2000.

**Table 5.7.1 Total combined fuel levy on leaded petrol and diesel**

\* Unleaded petrol has been available to South African motorists since 1996.  
 – A value equal to nil

## Diesel fuel rebate

This rebate started on 1 June 2000 and was afterwards extended to other industries. It applied to all coastal industries along with the fishing, agricultural, mining, forestry, farming and rail freight industries.

The general fuel levy and RAF levy are partially refunded. Refunds are administered through the VAT system. From 6 April 2005, the biodiesel fuel concession refund percentage to producers in agriculture, mining and forestry increased from 38.8% to 40.0% of the general fuel levy. The actual concession increased from 36.86 cents per litre to 40.00 cents per litre. From 2008, the biodiesel fuel tax concession increased from 40% to 50%.

From 7 April 2010, an increase of 7.5 cents per litre on both petrol and diesel was implemented to help fund the new multi-product petroleum pipeline between Durban and Johannesburg.

**Table 5.7.3 Road Accident Fund levy**

Date	93 octane petrol	Diesel
	Rate (cents)

01/04/2018 – 31/03/2019	193.0	193.0
01/04/2019 – 31/03/2020	198.0	198.0
01/04/2020 – 31/03/2021	207.0	207.0
01/04/2021 – 31/03/2024	218.0	218.0
01/04/2024 – 31/03/2025	218.0	218.0

\* The levy was introduced from 1 June 2000 according to a phased-in approach.

## Customs and excise levy

The customs and excise levy remained at 4 cents per litre for 2012/13.

Diesel power plants with a capacity of more than 200 megawatts can receive a full refund of the general fuel and RAF levies.

Effective from 3 April 2019, the following applied:

- an increase in the general fuel levy of 15 cents per litre; and
- an increase in the RAF levy of 5 cents per litre.

Effective from 1 April 2020, the following applied:

- an increase in the general fuel levy of 16 cents per litre; and
- an increase in the RAF levy of 9 cents per litre.

Effective from 7 April 2021, the following applied:

- an increase in the general fuel levy of 15 cents per litre; and
- an increase in the RAF levy of 11 cents per litre.

The 2022 Budget provided R5.2 billion in tax relief to support households and the economy by not adjusting the general fuel levy and the RAF levy. The 2023 Budget proposed to keep the general fuel levy and the RAF levy unchanged, leading to revenue foregone of R4 billion. The 2024 Budget kept the general fuel levy and the RAF levy unchanged.

## Carbon tax

Effective from 5 June 2019, the following applied:

- a carbon tax on the general fuel levy of 9 cents per litre on petrol; and
- a carbon tax on the general fuel levy of 10 cents per litre on diesel.

Effective from 1 April 2020, the following applied:

- an increase in the carbon tax rate of 5.6% for the 2020 calendar year (this increase included an annual inflation rate of 3.6% plus two percentage points in line with the Carbon Tax Act 15 of 2019); and
- accordingly, an increase in the carbon tax rate from R120 per tonne of carbon dioxide equivalent to R127 per tonne of carbon dioxide.

Effective from 1 January 2021, the following applied:

- an increase in the carbon tax rate of 5.2% from R127 per tonne of carbon dioxide equivalent to R134 per tonne of carbon dioxide; and
- an increase in the levy for 2021 by 1 cent to 8 cents/litre for petrol and 9 cents/litre for diesel from 7 April 2021.
- To support South Africa's climate change commitments under the Paris Agreement, the Department of Environment, Forestry and Fisheries considered enhancing the carbon budgeting system to regulate greenhouse gas emissions by imposing caps on companies for a five-year period. Once legislation on carbon budgets is enacted, government will phase out the carbon budget allowance of 5% provided under the carbon tax.

Effective from 1 January 2022, the following applied:

- an increase in the carbon tax rate, from R134 per tonne of carbon dioxide equivalent to R144 per tonne of carbon dioxide equivalent;
- an increase in the levy for 2022 by 1 cent to 9 cents/litre for petrol and 10 cents/litre for diesel from 6 April 2022; and
- an increase in the carbon tax cost recovery quantum for the liquid fuels refinery sector from 0.56 cents/litre to 0.63 cents/litre.

Effective from 1 January 2023, the following applied:

- an increase in the carbon tax rate, from R144 per tonne of carbon dioxide equivalent to R159 per tonne of carbon dioxide equivalent;
- an increase in the carbon fuel levy for 2023/24 by 1 cent to 10 cents/litre for petrol and 11 cents/litre for diesel from 5 April 2023; and
- an increase in the carbon tax cost recovery quantum for the liquid fuels refinery sector from 0.63 cents/litre to 0.66 cents/litre.

## 5.8 Mineral and petroleum royalties

The Mineral and Petroleum Resources Royalty Act 28 of 2008 was scheduled to be implemented on 1 May 2009. Mineral royalties are classified as a resource rent and therefore fall into the non-tax revenue category. The introduction of mining royalties was postponed for a year due to the recession and was levied on minerals disposed of or exported from 1 March 2010.

## 5.9 Base oils for lubrication

The excise duty on base oils for lubrication was abolished from 1 April 2005. The duty was 20 cents per litre for many years.

## 5.10 Plastic bag levy (environmental levy)

The levy on plastic shopping bags, which had been at 4 cents per bag since 2009, was increased to 6 cents per bag from 1 April 2013. From 1 April 2016, this levy was increased to 8 cents per bag. From 1 April 2018, this levy was increased to 12 cents per bag.

Plastic pollution remains a significant domestic environment problem, particularly for marine life. Government therefore proposed to raise the plastic bag levy from 12 cents to 25 cents per bag, effective from 1 April 2020.

To support the shift to a greener economy, the *2021 Budget Review* announced that government would differentiate levies on fossil-based and bio-based plastic bags. Plastic bags are currently taxed at 25 cents per bag. A reduced levy of 12.5 cents per bag will apply to bio-based plastic bags. The implementation date and technical specifications will be included in the Taxation Laws Amendment Bill.

To further discourage consumers from buying plastic bags, and to support reuse and recycling, the *2022 Budget Review* proposed that the plastic bag levy be increased from 25 cents per bag to 28 cents per bag from 1 April 2022.

The *2024 Budget Review* increased the plastic bag levy from 28 cents per bag to 32 cents per bag from 1 April 2024.

## 5.11 Electricity tax/levy

From 1 April 2009, government introduced a 2c/kWh tax on the sale of electricity generated from non-renewable sources, to be collected at source by the producers or generators of electricity.

From 1 April 2011, the levy applied to electricity generated from renewable and nuclear energy sources increased by 0.5c/kWh to 2.5c/kWh. The increase had no impact on electricity tariffs because it had already been taken into account in the National Energy Regulator of South Africa tariff structure.

From 1 April 2012, the electricity levy was increased by 1c/kWh to 3.5c/kWh. This would be used to fund energy-efficiency initiatives such as the solar water-heater programme.

**Table 5.11.1 Electricity tax/levy**

Effective date*	Rate per kWh
<i>Budget Review 2009</i> .....	2.0c
<i>Budget Review 2011</i> .....	2.5c
<i>Budget Review 2012</i> .....	3.5c

\* Effective from 1 April following the Budget announcement

## 5.12 Taxation of incandescent (filament) light bulbs

An environmental levy on incandescent light bulbs to promote energy efficiency and reduce electricity demand was proposed in the *2009 Budget Review*. An environmental levy of about R3 per bulb (between 1 cent and 3 cents per watt) was levied on incandescent light bulbs at the manufacturing level and on imports from 1 November 2009. From 1 April 2013, the levy on incandescent light bulbs increased to R4 per bulb. From 1 April 2016, this levy increased to Authorised dealers R6 per bulb. With effect from 1 April 2018, the environmental levy on incandescent light bulbs was increased from R6 to R8 per bulb. The *2024 Budget Review* proposed to raise the incandescent light bulb levy from R15 to R20 per light bulb from 1 April 2024.

## 5.13 Carbon dioxide vehicle emissions tax

The carbon dioxide (CO<sub>2</sub>) vehicle emissions tax was implemented on 1 September 2010 as a specific tax instead of the previously proposed ad valorem tax. New passenger vehicles were taxed based on their certified CO<sub>2</sub> emissions at R75 per gram per kilometre (g/km) for each g/km above 120 g/km. This emissions tax was in addition to the current ad valorem luxury tax on new vehicles. With effect from 1 April 2016, passenger vehicles tax was increased from R75 to R100 for every gram of emissions/km above 120 g CO<sub>2</sub>/km and, for double cabs, from R125 to R140 for every gram of emissions/km in excess of 175 g CO<sub>2</sub>/km. From 1 April 2018, passenger vehicles tax was increased from R100 to R110 for every gram of emissions/km above 120 g CO<sub>2</sub>/km and, for double cabs, from R140 to R150 for every gram of emissions/km in excess of 175 g CO<sub>2</sub>/km.

The *2022 Budget Review* increased the vehicle emissions tax rate on passenger cars from R120/g CO<sub>2</sub>/km to R132/g CO<sub>2</sub>/km and increased the tax on double cabs from R160/g CO<sub>2</sub>/km to R176/g CO<sub>2</sub>/km from 1 April 2022.

**Table 5.13.1 CO<sub>2</sub> vehicle emissions tax, example of tax per vehicle and tax incidence: passenger cars**

\* The CO<sub>2</sub> emissions threshold for passenger vehicles (as identified in terms of the Customs and Excise Act 91 of 1964) remains at 120 g/km. The tax rate changed from R75/g km to R100/g km above the threshold in April 2016.

## 5.14 Environmental levy on tyres

This levy was implemented at a rate of R2.30/kg of tyres, effective from 1 October 2016.

## 5.15 Health promotion levy

The health promotion levy, which taxes sugar beverages, was implemented on 1 April 2018. It applies to beverages with more than 4 grams of sugar content per 100 ml. A tax of 2.1 cents per gram is applied for every gram of sugar beyond the first 4 grams, which are levy-free. To avoid erosion in the value of the tax due to inflation, from 1 April 2019 the levy rate increased to 2.21 cents per gram in excess of 4 grams of sugar per 100 ml.

From 1 April 2022, the health promotion levy for beverages with more than 4 grams of sugar content per 100 ml increased from 2.21 cents per gram to 2.31 cents per gram. Consultations will also be initiated to consider lowering the 4 grams threshold and extending the levy to fruit juices.

## 5.16 Taxes on use of goods and permission to use goods or to perform activities

Effective date	Rate
01/11/2000 .....	R50 per fee-paying passenger travelling to SACU countries* R100 per fee-paying passenger travelling to all other international destinations
01/07/2003 .....	R55 per fee-paying passenger travelling to SACU countries* R110 per fee-paying passenger travelling to all other international destinations
01/08/2005 .....	R60 per fee-paying passenger travelling to SACU countries* R120 per fee-paying passenger travelling to all other international destinations
01/10/2009 .....	R80 per fee-paying passenger travelling to SACU countries* R150 per fee-paying passenger travelling to all other international destinations
01/10/2011 .....	R100 per fee-paying passenger travelling to SACU countries* R190 per fee-paying passenger travelling to all other international destinations

\* Southern African Customs Union (SACU) countries: Botswana, Lesotho, Namibia, South Africa and Swaziland

## 5.17 Mining leases and ownership

Mining leases and ownership were reclassified as non-tax revenue. The historical years from 2000/01 were adjusted for comparative purposes.

## 5.18 Electrical and hydrogen – powered vehicle tax incentive

The 2024 *Budget Review* introduced vehicle tax incentive for manufacturers in 2026 to encourage the production of electric vehicles. Producers of electric vehicles in South Africa will be able to claim 150% of qualifying investment spending as an incentive to aid the transition to the new energy vehicles.

# 6. Taxes on international trade and transactions

Table 6.1 Calculation of taxes on international trade and transactions – only an example

Calculation of VAT and duties (imports)	Tariff	Cost (rand)
Goods are imported free on board (fob) for R100 .....		
Import value (fob).....		100.00
Adjustment.....	10%	10.00
The reason for the 10% adjustment relates to the import value (R100 and above) based on the fob cost .....		
Adjusted value for VAT purposes.....		<b>110.00</b>
Customs duty (dependent on the tariff book), for example .....	2%	
Ad valorem (dependent on the tariff book), for example.....	3%	
<b>Total cost for importer.....</b>		
Purchase price .....		100.00
Customs duty on R100 (based on import value).....	2%	2.00
Ad valorem on R100 (based on import value).....	3%	3.00
Adjustment.....		10.00
		<b>115.00</b>
VAT (based on adjusted value plus all duties) .....	15%	17.25
<b>Total.....</b>		<b>132.25</b>

## 6.1 Surcharge on imports

Table 6.1.1 Surcharge

Fiscal year	Announcement	Implementation date	Rate (per cent)	Important provisions	Amount collected: fiscal year ending 31 March (R millions)
1978/79	Budget Speech on 1978/03/29	1978/03/30	12.5	Provisions remain unchanged.	359.4
1979/80	Budget Speech on 1979/03/28	1979/03/29	7.5	Provisions remain unchanged.	250.6
1980/81	Budget Speech on 1980/03/26	1980/03/27	Abolished	Surcharge on all goods is abolished. This abolishment is also applicable to all goods at customs and excise offices which have not yet been cleared for domestic consumption.	-2.9
1981/82	Partial appropriation draft Act on 1982/02/10	1982/02/11	10.0	Surcharge is reinstated on all imported goods, with the exception of goods for government stock.	100.3
1982/83	Special government notice on 1982/11/26	1982/11/26	7.5	The 2.5% reduction applies to comply with the IMF's agreement to phase out the surcharge completely by the end of 1983.	598.2
	Special government notice on 1983/11/25	1983/11/25	5.0		
1983/84	Special government notice on 1983/11/29	1983/11/29	Abolished		226.0
1985/86	Special government notice on 1985/09/23	1985/09/23	10	Surcharge is reinstated on all imported goods, with the exception of goods for government stock. Goods are subject to the General Agreement on Tariffs and Trade (GATT).	498.6
1986/87	Budget Speech on 1986/03/17	1986/03/18	10	Surcharge on all books is abolished.	837.8
	Special government notice	1986/06	10	Surcharge on certain imported natural resources and goods used in the production processes (as specified in the annexures to the Customs and Excise Act) is abolished.	
1987/88	Budget Speech on 1987/06/03	1987/06/04	10	All natural resources and intermediate products that are subject to the customs duties and which are used in the production processes are exempted from the surcharge.	742.6
1988/89	Special government notice on 1988/08/12	1988/08/15	0–60	As above and essential food imports are exempted from the surcharge. Certain discounts on natural resources and intermediate products are implemented.	1 875.6
1989/90	Special government notice on 1989/05/05	1989/05/05	0–60	Discounts in respect of intermediate goods are abolished but taxed at a lower rate of 15% (previously 30%).	2 625.4
1990/91	Budget Speech on 1990/03/14	1990/03/14	0–40	Reduction in differentiated rates: Luxury goods - from 60% to 40% White goods - from 20% to 15% Capital goods - from 15% to 10% Intermediate goods - from 10% to 7.5%	2 075.3
1991/92	Budget Speech on 1991/03/20	1991/03/20	0–40	Change in differentiated rates: Luxury goods - to 40% White goods - to 15% Capital goods - to 5% Intermediate goods - to 5%	1 455.5

Table 6.1.1 Surcharge (continued)

Fiscal year	Announcement	Implementation date	Rate (per cent)	Important provisions	Amount collected: fiscal year ending 31 March (R millions)
1992/93		Unchanged			1 520.8
1993/94		Unchanged			1 756.1
1994/95	<i>Budget Review 1994</i>	1994/06/23	0–40	Surcharge on capital and intermediate goods is abolished.	1 170.8
	<i>Government Gazette on 1994/09/02</i>	1994/09/02		Surcharge on vehicles is abolished.	
1995/96	<i>Budget Review 1995</i>	1995/10/01		Remaining surcharge on luxury and white goods is abolished.	

## 7. Other taxes

### 7.1 Stamp duty

A duty was imposed on debit entries by banks, instalment credit agreements, lease agreements of fixed property, and unlisted marketable securities, and previously on the issue of official documents such as passports, contracts, deeds for the transfer of ownership and cheques.

Stamp duties applied as follows:

- Share transactions were reduced from 1% to 0.5% from 1 April 1996.
- Share transactions were reduced from 0.5% to 0.25% from 1 April 1997.
- Antenuptial and postnuptial contracts, duplicate originals, partnership agreements and powers of attorney were abolished from 1 April 1999.
- Bills of exchange, bills of entry, securities and suretyships were abolished from 1 April 2001.
- The cession of mortgages and the cession of insurance policies were abolished from 1 April 2002.
- Insurance policies against accident, bodily injury, incapacity or sickness were abolished from 1 April 2002.
- Insurance policies and fixed deposits were abolished from 1 April 2003.
- Mortgages were abolished from 1 March 2004.
- Negotiable certificates of deposits (NCDs) were abolished from 1 April 2004.
- All debit entries were eliminated from 1 March 2005.
- The issue of shares was eliminated from 1 January 2006.

The threshold exemption for stamp duties on leases was increased from R200 to R500 per agreement from 1 March 2006.

From 1 March 2007, stamp duties on short-term leases (less than five years) were abolished.

Stamp duties were abolished with effect from 1 April 2009 when the Stamp Duties Act 77 of 1968 (Stamp Duties Act) was repealed. The scrapping of the Stamp Duties Act allowed the reduction in the scope of stamp duties over the preceding few years so that prior to the abolition only property leases concluded for a period of more than five years required such duties to be paid. However, a stamp duty is still applicable on lease agreements, or other dutiable instruments, if they were executed before 1 April 2009 and were not duly stamped at the time.

### 7.2 Implementing the Local Government: Municipal Property Rates Act 6 of 2004

The Local Government Municipal Property Rates Act 6 of 2004 (Municipal Property Rates Act) regulates municipalities' powers to impose rates on properties. The Municipal Property Rates Act took effect on 2 July 2005 and provides for:

- the exclusion of certain properties from rates in the national interest;
- a transparent and fair system of granting relief measures;
- fair and equitable valuation methods; and
- objections and appeals processes.

Municipalities that historically have not charged rates on the market value of the land and buildings combined are expected to reduce the rate charged (percentage or cents per rand) to ensure that there is a broad continuity in revenue collected from the expanded tax base.

### 7.3 Closure of sophisticated tax loopholes

Certain schemes were identified for closure and details were provided in the *2010 Budget Review*, specifically Annexure C, for:

- cross-border mismatches;
- interest cost allocation for finance operations;
- ‘protected cell’ companies;
- cross-border insurance payments;
- participation preferences and guaranteed shares;
- cross-border interest exemptions; and
- transfer pricing.

### 7.4 Tax expenditure statements

The *2011 Budget Review* included, for the first time, a tax expenditure statement. The statement is a summary of tax revenues that were foregone as a result of various tax incentives to help achieve government’s social and economic objectives. Government is committed to transparency in the Budget process. The publication of the tax expenditure statement promotes that objective.

**Loan levy**

If the normal tax calculated at these rates amounts to R150 or more, a loan levy at the following rate is added thereto:

- If the taxpayer falls in the age group '60 and older' and his/her taxable income does not exceed R5 000, no levy is added.
- In all other cases, the loan levy amounts to 10%; in calculating the loan levy, fractions of the rand are discarded.

Surcharge on normal tax payable by unmarried persons

Where the taxable income does not exceed R28 000, a surcharge is added equal to 20% of the tax so calculated, after deducting an amount equal to the rebates. Where the taxable income of such a person exceeds R28 000, the tax payable is the amount of tax calculated as aforesaid on the taxable income of R28 000, plus 50% of the amount by which the taxable income exceeds R28 000.

**Surcharge on normal tax payable by unmarried persons**

Where the taxable income does not exceed R28 000, a surcharge is added equal to 20% of the tax so calculated, after deducting an amount equal to the rebates. Where the taxable income of such a person exceeds R28 000, the tax payable is the amount of tax calculated as aforesaid on the taxable income of R28 000, plus 50% of the amount by which the taxable income exceeds R28 000.

**Loan levy**

A 5% loan levy must be added to normal tax calculated according to the above-mentioned rates of tax.

**A loan levy is not payable:**

- where the taxable income does not exceed R7 000;
- where the basic normal tax is less than R150; and
- by a person over the age of 70 whose taxable income does not exceed R15 000.

In calculating the loan levy, fractions of the rand are discarded.

## Notes:

The transitional levy is applicable and calculated as follows:

1. Married and unmarried persons:  
3.33% of taxable income exceeding R50 000 (taxable income excludes certain retirement benefits).
2. Married women:  
3.33% of taxable income exceeding R175 000 (taxable income excludes certain retirement benefits).
3. Companies (including close corporations): 5% of taxable income exceeding R50 000.
4. Trusts and estates (taxable as unmarried persons): 3.33% of taxable income exceeding R50 000.

## Personal income tax relief

PIT provides the foundation for an equitable and progressive tax system. PIT brackets and rebates are partially adjusted for 'fiscal drag' to take inflation into account. To compensate for the effects of inflation, which pushes some individuals into higher tax brackets and reduces their purchasing power, the PIT and rebates were adjusted, providing individuals with PIT relief, as shown in the Annexure below.

### Annexure P *Budget Review 1994 (continued)*
